Claimant Count- (now includes people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek and be available for work)

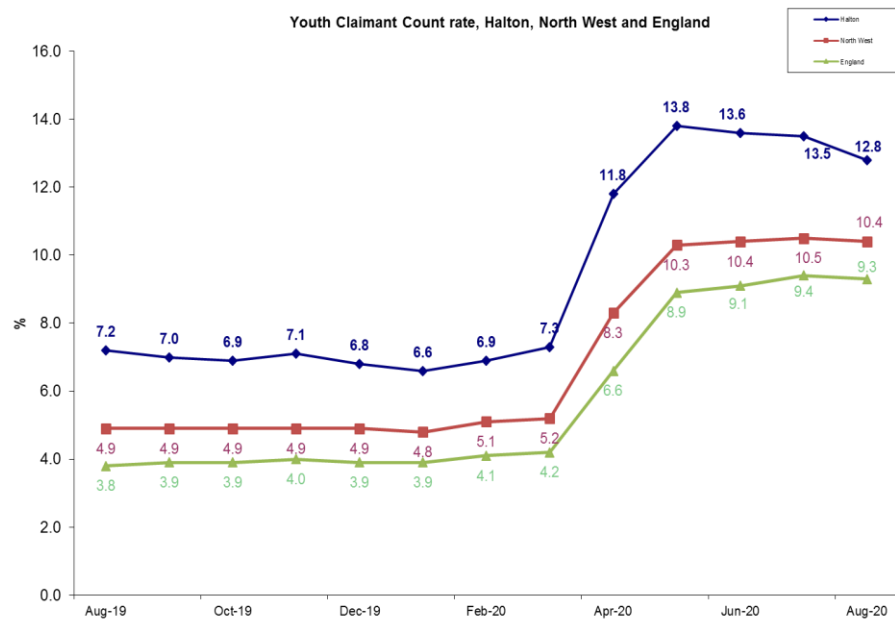

Claimant Count (Aug-20)¹

Claimant Count by ward (Aug-20)²

Claimant Count: 18-24 year olds (Aug-20)³

Claimant Count definition

This experimental series counts the number of people claiming Jobseeker's Allowance plus those who claim Universal Credit and are required to seek work and be available for work and replaces the number of people claiming Jobseeker's Allowance as the headline indicator of the number of people claiming benefits principally for the reason of being unemployed

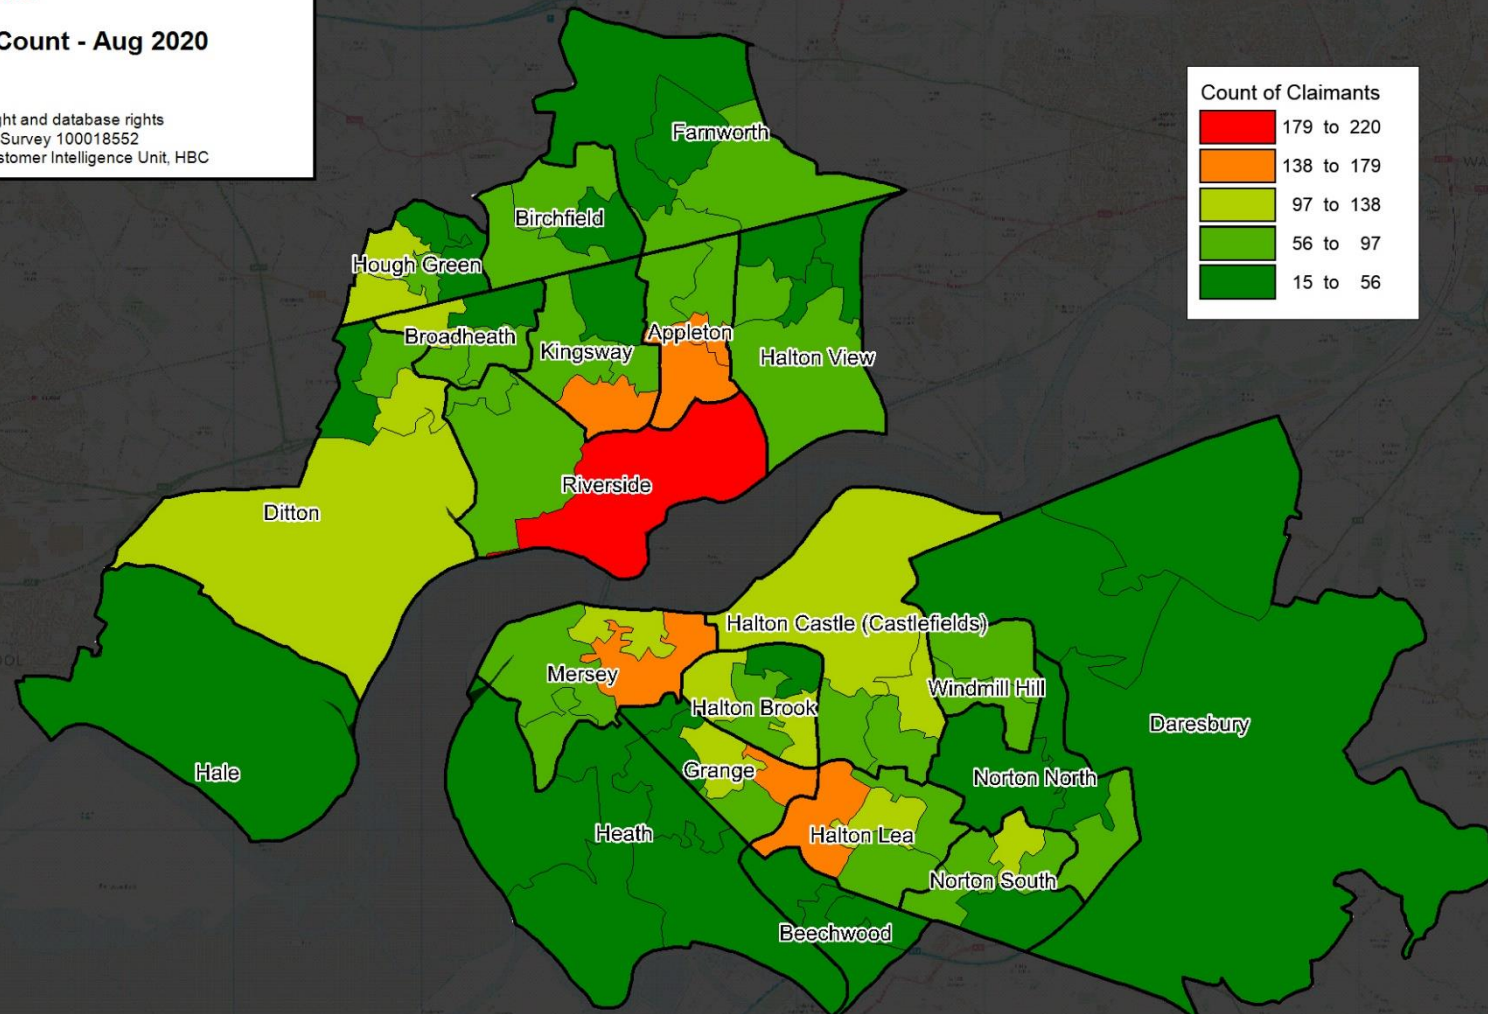

Under Universal Credit a broader span of claimants are required to look for work than under Jobseeker's Allowance. As Universal Credit Full Service is rolled out in particular areas, the number of people recorded as being on the Claimant Count is therefore likely to rise.

Halton has been rolled out to the Universal Credit Full Digital Service. This service will allow users to make a claim, check details of payments, notify any change of circumstance and search for a job through a single account. The government expects the national roll-out to the full Digital Service to be completed by September 2018.
